

**PIPELINES
DELIVER**

Pipelines Deliver the Jet Fuel You Need

Pipelines provide a reliable network that ensures airports have a steady, efficient supply of jet fuel, helping keep flights on schedule and making air travel safer and more accessible.

Energy Production

Pipelines gather and deliver energy from where it is produced.

Refineries

Pipelines deliver crude oil to refineries that make gasoline, diesel and jet fuel.

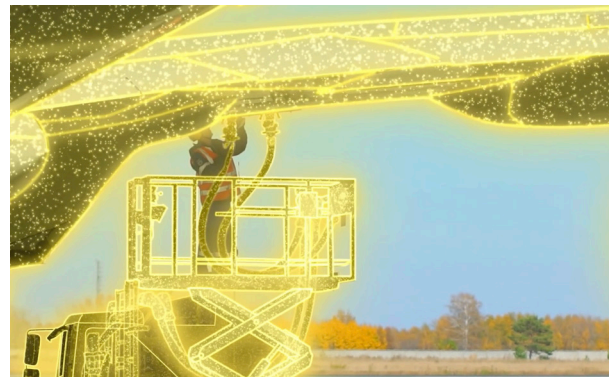

Fueling Airports

Pipelines transport jet fuel directly to airports, where tanker trucks distribute it to each plane.

Air Travel

Airplanes rely on jet fuel to fly. Pipelines deliver the energy your plane depends on to get you to your destination.
